ACM-3Z-IN

Solutions manufactured by TIS Control bring about many changes with their user-friendly functions. One of these all-encompassing solutions is the ACM 3Z, a module that easily links to other 3rd-party devices such as magnetic sensors, security sensors, N/C N/O PIR detectors, water & smoke leakage sensors, and other dry contact signals.

You can also connect it to the WiFi network to monitor your security zones, and you can program it to control the safety and energy savings of your project. It is compatible with both Android and IOS systems, so there is no barrier to your fully smart lifestyle with this functional module.
