A Smarter, Cleaner Experience Starts Here

Introducing the TIS Smart Toilet – a seamless blend of luxury, hygiene, and intelligent functionality. Designed to elevate modern bathrooms, this elegant, one-piece tankless toilet combines aesthetics with advanced automation, transforming everyday routines into refreshing rituals.

Intelligent Hygiene, Tailored to You

Enjoy a customizable cleansing experience with multiple cleaning modes, including rear wash, oscillating motion, bubble cleaning, and a gentle child-friendly option. Dual self-cleaning stainless-steel nozzles ensure precise front and rear washing, with adjustable positioning and built-in UV sterilization for maximum hygiene.

Comfort Meets Convenience

The ergonomically curved seat supports the body naturally and includes a heated surface for added comfort. A warm air dryer and automatic deodorization system complete the experience, providing hands-free cleanliness without compromise. The motion-activated lid opens and closes automatically, offering a fully touchless experience.

Full Control at Your Fingertips

From water temperature and pressure adjustment to massage cleaning with alternating hot and cold flows, every detail is under your control. Use the intuitive knob or full-function remote to personalize every aspect of your experience with ease.

Reliable in Every Situation

Equipped with emergency flushing capability for up to **100** flushes during a power outage, and dual-flush technology for water-saving control, the TIS Smart WC is designed to perform in all conditions. It's smart, sustainable, and always ready.

Elegant by Design Built to Last

Crafted from durable **PP** and **ABS** materials, this elongated, floor-mounted unit supports both wall and ground drainage. Its seamless, tankless silhouette brings a sleek, modern touch to any bathroom.
